Kentuckiana Medical Center

U.S. Trustee Basic Monthly Operating Report

Variance from Forecast

January 2011

Actual monthly net loss was (\$708,376) as compared to the forecasted net loss of (\$399,313) resulting in a variance of (\$309,063). The actual expenses for the month were less than forecasted and the variance is attributable to the shortfall in revenue. The shortfall in revenue is due to a lesser than forecast average daily census. The lower census was in part attributed to the unavailability of staff lost since bankruptcy preventing the opening of additional Medical / Surgical beds.
